

- Provides operator control for remote controlled vehicle operations in radio restricted, jammed or silent areas
- Automatically dispenses and retrieves fiber optic cable; no operator control of distribution or retrieval is required
- The FCCS can be installed in 30 minutes or less by two operators
- FCCS is scalable to fit a variety of vehicles and cable types

- Standard FCCS provides 2 miles of fiber optic cable; custom lengths available upon request
- All enclosures are environmentally sealed
- Ideal for operating in urban areas or areas where line of sight is not an option
- FCCS automatically maintains constant tension on the cable to ensure smooth distribution and retrieval
- Operable from -20 to 120 degrees F

**ROBOTIC**  
applications

Flex Sensor

FCCS tilts with engine cover for easy access

Traverse mechanism for even spooling
