ARA's 3 Day Course for Federal & Contract Security Professionals covers the following topics:

- ❖ History of the ISC
- ❖ Authority of the ISC
- ❖ Authority to use Risk Management Process (RMP)
- ❖ How to read, use and understand the RMP documents
- ❖ Review of the RMP
- ❖ How to establish a Facility Security Level (FSL)
- ❖ How a Facility Security Committee (FSC) works
- ❖ How to use the Design Basis Threat (DBT)
- ❖ How to determine Risk
- ❖ How to establish facility specific countermeasures
- ❖ Review of the 5 Levels of Protection (LOP)
- ❖ How to establish each LOP
- ❖ Practical Exercise
 - Establish an FSL
 - Determine Risk
 - Determine Countermeasures
- ❖ Final Exam – Graded, must score at least 80% to pass

The Risk Management Process for Federal Facilities: An Interagency Security Committee Standard

2nd Edition
November 2016

The following slides are an excerpt from the FSC module (see below)

- ❖ History of the ISC
- ❖ Authority of the ISC
- ❖ Authority to use Risk Management Process (RMP)
- ❖ How to read, use and understand the RMP documents
- ❖ Review of the RMP
- ❖ How to establish an Facility Security Level (FSL)
- ❖ **How a Facility Security Committee (FSC) works**
- ❖ How to use the Design Basis Threat (DBT)
- ❖ How to determine Risk
- ❖ How to establish facility specific countermeasures
- ❖ Review of the 5 Levels of Protection (LOP)
- ❖ How to establish each LOP
- ❖ Practical Exercise
 - Establish an FSL
 - Determine Risk
 - Determine Countermeasures
- ❖ Final Exam – Graded, must score at least 80% to pass

The Risk Management Process for Federal Facilities: An Interagency Security Committee Standard

2nd Edition
November 2016

I am on the FSC?!? What does that mean?

- This workshop will help attendees find answers to these questions!
- At the end of the workshop attendees should understand the basic composition and operation of a Facility Security Committee (FSC) as defined in the Department of Homeland Security (DHS) Interagency Security Committee (ISC) standard, Risk Management Process for Federal Facilities
 - Who should participate?
 - What is the basic function?
 - Who is in charge?
 - What are the responsibilities of members?
 - How often do they meet?
 - What is covered in meetings?
 - Do I have to?

Official Definition of the FSC

- Actually, FSCs have important functions in determining security for Federal facilities
- The FSC is a committee that is responsible for addressing facility-specific security issues and approving the implementation of security measures and practices.
- The FSC consists of representatives of all Federal tenants in the facility, the security organization (usually FPS), and the owning or leasing department or agency.
- In the case of new construction or pending lease actions, the FSC will also include the project team and the planned tenant(s).
- The FSC was formerly known as the Building Security Committee (BSC).

Who has a vote on the FSC?

- Each Federal tenant who pays rent for space in the facility provides one representative to the FSC
- The Federal tenant that occupies the most square footage in the building provides the Chairperson for the FSC (i.e. whichever tenant pays the most rent leads the charge)
- The representatives from the security organization and the building owner/landlord are not voting members
- Each member of the FSC representing a Federal tenant in the building has a vote
 - However, votes are weighted by the square footage occupied by each Federal tenant (See bullet #2 above 😊)

Is there more?

- Yes, there is a lot more information to be covered.
- This interactive workshop, offered via web-ex, will deliver important information in a format designed to educate the attendee, hopefully without confusing them or putting them to sleep!
- We will do our best to make the training valuable to the attendees and as entertaining as possible!!
