

RAPID PROTOTYPING & MANUFACTURING

ARA IS YOUR TRUSTED PARTNER IN DELIVERING INNOVATIVE AND AGILE SOLUTIONS.

- OVER 10 ACRES OF MANUFACTURING SPACE
- PROTOTYPING AND LARGE SCALE PRODUCTION CAPABILITIES
- TOP SECRET FACILITY CLEARANCE
- ISO 9001:2015 AND AS9100:2016 CERTIFIED FACILITIES

MECHANICAL ENGINEERING

We employ SOLIDWORKS-certified engineers who specialize in mechanical and structural design.

CUSTOM FABRICATION

From electrical system design to customized parts, our highly-skilled technicians and fabricators provide one-stop shopping for prototyping.

TESTING

Large open areas with movable work stations support testing of fully assembled robots and sensor systems.

COMPOSITES

Using CNC machinery and ancillary equipment, ARA provides start-to-finish solutions, from in-house tooling design through finished component fabrication.

SOFT GOODS

Through precise cutting and expert fabrication techniques, we produce high-quality products tailored to diverse project requirements.

ADVANCED COATINGS & PAINT

Our R&D Paint Lab, comprised of skilled chemists, provides our customers with timely, cost-effective solutions to complex coating performance requirements.

QUALITY ASSURANCE

We test components and complete assemblies to ensure quality at all key points in the manufacturing process.
